

# CITY OF LODI

## ELECTRIC UTILITY DEPARTMENT

### SCHEDULE I1

#### GENERAL SERVICE - GROUP 5 COMMERCIAL/INDUSTRIAL - OPTIONAL

#### APPLICABILITY:

This schedule is an optional rate for accounts who would otherwise qualify for primary service under the G5 rate schedule with billing period demands of 1,000 kilowatts (kW) or more for three consecutive months.

**Demand:** The billing period and peak period demands will be the maximum average power taken during any 15-minute period interval in the billing period and peak period, respectively, but not less than the diversified resistance welder load. In cases where the use of energy is intermittent or subject to violent fluctuations, a 5-minute interval may be used.

**Assignment to Schedule:** Assignment to this schedule is at the option of the customer and does not supersede any standby service contracts.

This rate schedule is prospective and not subject to rebate or retroactivity.

When a customer chooses to be assigned to this schedule, the customer elects the City of Lodi (City) to be the sole electric power requirements provider of choice. The customer must give the City three year written notice before the customer can elect to use another electric power requirements provider.

When a customer has a measurable incremental permanent load increase of 200 kW or greater, over the highest billing period demand in the previous twelve (12) months the customer will be eligible for a ten (10) percent discount on the incremental Demand and Energy charges. Such billing change will be made as soon as practicable after verification of said changes and is not subject to rebate or retroactivity. It shall be the responsibility of the customer to notify the City of any such change.

When an account billed on this schedule qualifies for another City bundled rate schedule, the customer may elect to be billed on that other rate schedule. When a customer chooses to be assigned to another bundled rate a three-year written notice is still required before the customer can elect to use another electric power requirements provider.

If the billing period demand drops below 1,000 kW and remains there for 12 consecutive billing cycles, the City will transfer the account to the appropriate rate schedule and the customer will be subject to the requirements of the appropriate schedule, rather than schedule I1.

SCHEDULE I1

GENERAL SERVICE - GROUP 5 COMMERCIAL/INDUSTRIAL - OPTIONAL

---

**RATES:**

Customer Charge (per meter per billing cycle)..... \$134.54

Service Voltage: Primary (I1-P)  
 Season: Summer Winter

Demand Charges:

Per kW of peak period demand..... \$10.76 --  
 Per kW of billing period demand..... \$ 3.17 \$ 3.17

Energy Charges:

<b>&lt; 4000 kW</b>	<b>Summer</b>	<b>Winter</b>
Peak period (per kWh)	0.14029	--
Partial peak period (per kWh)	0.10807	0.09972
Off peak period (per kWh)	0.09245	0.09177

<b>≥4000 kW</b>	<b>Summer</b>	<b>Winter</b>
Peak period (per kWh)	0.13378	--
Partial peak period (per kWh)	0.10156	0.09321
Off peak period (per kWh)	0.08594	0.08526

Economic Stimulus Rate  
 Credit: (per kWh) ..... 0.01359 0.01359

**ENERGY COST AJUSTMENT (ECA):**

An energy cost adjustment shall be included in each bill for service as provided in Section 13.20.175 Schedule ECA – Energy Cost Adjustment.

**TYPES OF CHARGES:**

The billing cycle charge for service is the sum of the Customer Charge, the Demand Charges, the Energy Charges, the ECA and the Power Factor Adjustment:

CUSTOMER CHARGE: The Customer Charge is a flat monthly fee.

## SCHEDULE I1

### GENERAL SERVICE - GROUP 5 COMMERCIAL/INDUSTRIAL - OPTIONAL

---

**DEMAND CHARGES:** This schedule has two Demand Charges: A peak period Demand Charge and a billing period Demand Charge. The peak period Demand Charge per kW applies to the maximum average power taken during any metering interval during the billing cycle's peak hours. The billing period Demand Charge per kW applies to the maximum average power taken during any metering interval at any time during the billing cycle. The bill will include both of these Demand Charges. Time periods are defined below.

**ENERGY CHARGES:** This schedule has three Energy Charges: A peak period Energy Charge, a partial peak period Energy Charge, and an off peak period Energy Charge. The peak period Energy Charge per kWh applies to the total kWh used during the billing cycle's peak hours. Partial peak period Energy Charge per kWh applies to the total kWh used during the billing cycle's partial peak hours. Off peak period Energy Charge per kWh applies to the total kWh used during the billing cycles off peak hours. The bill will include all of these Energy Charges. Time periods are defined below.

**ECA:** The ECA is a per kWh charge applied to the total kWh used during the billing cycle

Monthly charges may be decreased or increased based upon power factor as defined below.

As shown on the rates above, Demand and Energy Charges are based on the voltage at which service is taken. Service Voltage is defined below.

#### **DEFINITION OF SERVICE VOLTAGE:**

The service voltage class:

Primary: Service Voltage class for service at 12,000 volts (nominal).

#### **POWER FACTOR ADJUSTMENTS:**

Bills will be adjusted for billing cycle average power factor as follows:

The total charge (except taxes and customer charge) for any billing cycle as computed on the above rates shall be decreased or increased, respectively, by 0.0006% for each 0.01 percentage point that the average power factor of the customer's load in the billing cycle is greater or less than 85.00%, such average power factor to be computed (to the nearest hundredth of a percent) from the ratio of lagging kilovolt ampere-hours to kilowatt-hours consumed in the billing cycle.

Customer with service entrance equipment unable to accommodate the City's reactive metering equipment shall have their billing power factor determined by testing performed by the City.

---

Effective January 2, 2015  
Ordinance No. 1901

## SCHEDULE I1

### GENERAL SERVICE - GROUP 5 COMMERCIAL/INDUSTRIAL - OPTIONAL

---

#### **DEFINITION OF TIME PERIODS:**

Times of the year and times of the day are defined as follows:

#### **SUMMER** (May 1 through October 31)

Peak: 3:00 p.m. to 7:00 p.m. Monday through Friday (except holidays).

Partial Peak: 8:30 a.m. to 3:00 p.m. and 7:00 p.m. to 9:30 p.m. Monday through Friday (except holidays).

Off Peak: 9:30 p.m. to 8:30 a.m. Monday through Friday and all day Saturday, Sunday and holidays.

#### **WINTER** (November 1 through April 30)

Partial Peak: 8:30 a.m. to 9:30 p.m. Monday through Friday (except holidays).

Off Peak: 9:30 p.m. to 8:30 a.m. Monday through Friday and all day Saturday, Sunday and holidays.

#### **HOLIDAYS**

"Holidays," for the purpose of this rate schedule, are New Year's Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving Day, the day after Thanksgiving Day and Christmas Day. The dates will be based on those days on which the holidays are legally observed.
